

Home Learning Activities – Cyfnod Sylfaen 1

Below is a variety of Home Learning activities that pupils can carry out at home without the need of an electronic device. Depending on the nature of the activity the work to be recorded neatly on paper.

Date: w/c Monday 18TH May

Daily Activities

- Practice reading a story on the Oxford Owl elearning website.
- Watch a Read, Write Inc phonics video on Ruth Miskin's YouTube channel.
- Mental Maths - Reception Class - counting back in 1s from 20, counting back from 100 in 10s. Year 1 - counting back in 1s from 50, counting back in 10s from 100.
- Daily Exercise - create an obstacle course in your garden.
- Sing our 'Days of the Week' songs in Welsh and English.
- Sut mae'r tywydd - How is the weather today?
- Reflection - what did you enjoy most today? What are you looking forward to tomorrow?

Language, Literacy and Communication

- Play a word association game. Think of a minibeast and ask somebody in your home to give a word associated with the minibeast. Keep going until you can't think of anymore e.g. bee - stripey - yellow - sun - hot
- Write a paragraph about your favourite thing about this time of year, draw pictures to go with your work.
- Choose a word e.g. pen. Think of as many rhyming words as you can. Write a list and see how many you can get!

Humanities

- Our Environment - think about how you could help to make your home/garden more environmentally friendly. Create a list of 5 rules that you could follow e.g. recycling more food waste, turning off all lights.
- Create a poster celebrating one natural thing in your local environment - this could be a field, a pond, a path you enjoy walking on, a beach.
- Think of 5 things you are thankful for, ask others at home what they are thankful for.

Mathematics and Numeracy

- Looking at patterns - find something in your home (or outside) which has a pattern. Can you copy the pattern? Can you repeat the pattern? Can you create a pattern of your own? This could be using numbers, colours or shapes.
- Longer than, shorter than - draw around your foot. Cut out the drawing and use this as your measuring tool. Find something longer than your foot, find something shorter than your foot. How many things can you find?

Expressive Arts

- Make DIY Squishy Soap - $\frac{1}{2}$ cup cornstarch, $\frac{1}{4}$ cup body wash, 1sp food colouring, $\frac{1}{2}$ cup baby oil. You can use this squishy soap to mould and make models of anything you want.
- Leaf Art - make a minibeast picture using only leaves you can find in your garden or on your daily walk.
- Role Play - act out one of your favourite stories. Can your family guess which story it is? Take turns at guessing.
- Draw a picture to give to somebody living in your house.

Science and Technology

- Living Things - find lots of different living things in your garden or outdoor area. Can you sketch or draw any of them? Can you name and label your creative work? E.g. parts of a plant or flower.
- Design a bridge - this can be made out of any materials you have at home. You can build it as big or as small as you like - what will go over the bridge? A small toy? Minibeasts? How strong will your bridge need to be? How can you test your bridge?

Health and Well-being

- Test Yourself - can you skip 20 times, can you do 10 star jumps in one go? Create a routine and challenge yourself to see how many you can do in one go. Can you beat the previous day's score?
- Spend time making little tokens for the people living at home with you. You could write things like 'give a hug', 'read a story', 'pick a flower'. Share the tokens out and do little acts of kindness throughout the week.
